Our Commitment

Penn Mutual Asset Management (“PMAM”) is focused on risk-based institutional asset management. We are fixed-income specialists dedicated to creating value through a prudent, thoughtful and rigorous investment decision-making process. We tailor our proven approach to generate solid risk-adjusted returns while balancing the need for capital preservation to achieve each investment objective.

Our Edge

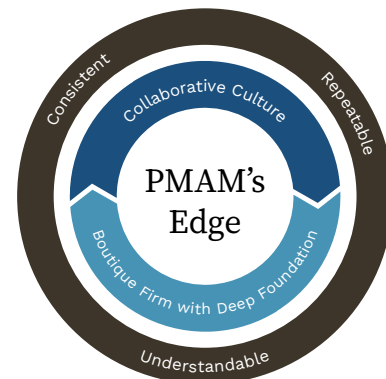

Collaborative Culture

The ability to achieve each investment objective is largely dependent on the collaboration of a team of innovative and driven investment professionals. We believe in a collaborative culture that supports idea generation and decision-making. Our team-based approach to investment decision-making ensures an open and continuous dialogue among investment team members. A “trading desk environment” facilitates regular communication, and daily investment team meetings provide an open forum for idea sharing.

With diverse backgrounds, extensive experience and unique perspectives, our investment professionals bring a variety of complementary skill sets that guide our overall relative value-based investing methodology. It is our ability to combine our team’s unique insights into well-informed decisions that truly sets us apart.

Boutique Firm With Deep Foundation

We combine the financial stability and deep foundation of a well-established organization with the exceptional service and conviction of a boutique firm. We are nimble and opportunistic investors, creating value and generating alpha through right-sized total return strategies. Our investment team’s ability to move quickly and capitalize on opportunities is a key differentiator of our business. At PMAM, we take a tailored approach to investing, offering direct access to our team of investment professionals. We believe this approach encourages a collaborative relationship and provides full transparency as we navigate the markets to achieve each investment objective.

Our Investment Capabilities

With over \$43 billion in assets under management, we are dedicated to delivering exceptional service, exceeding expectations and earning trusted relationships by executing on our core asset management competencies, which include:

Our investment capabilities incorporate a unified investment philosophy and process across the risk spectrum.
